Thank you, Thank you, Thank you!

I wanted to report that my students scored 100% passing on their Biology End of Instruction Test this last year, 2008-2009. I know it was in part to the techniques I learned when you came to OKC last fall. When we as educators have high expectations the students will follow. They desire to be successful and are encouraged to know that their teachers have confidence that they will meet the goal that is set for them.

Thank you again for all that you do for our students!
