subject12 Powerful Words

Mr. Bell I want to thank you for the two presentations that I seen you present. I saw your presentation at the Central Region Office in Houston in June 2009 and then I saw you again at Thompson Elementary in fall 2009. I work at Cullen Middle School in Houston, Texas. I teach the Behavior Support Class and my 8th graders passed the Reading part of the TAKS test. Yes 100% of my 8th graders passed. I said to myself will this really work and I tried it when I got back to my campus and went over the 12 powerful words everyday. I would have my students to spell the words, write the definitions, and recite the word and definitions out loud. My students would be taking a practice test in class and when they saw the word on the practice test they would draw a line through and put the 12 powerful words definition above it. I just want to say thank you for the twelve powerful words.

Troylon Griffin
B.S.C. Special Education Teacher

Bend but don't break because nothing beats a failure but a trier

Larry's Note: This special education teacher (and many others) used Larry Bell's strategies to have a 100% pass rate on the state test. NO EXCUSES!!
