Larry,

I heard your inspirational address last year at the Mississippi Association of School Superintendents. Your words of encouragement came at a critical time in my career. You are the main reason that I attended the Mississippi Council of Exceptional Children conference in Natchez this past week. I am so thankful that I did!! You have inspired me to be a better educator and as you suggested my staff will begin using some of your techniques.

I received the information on the New Orleans conference. Although this is definitely an option for us, I would like to get some information from you about costs for coming to our district to work with all of our teachers. I know that I can send key teachers to the New Orleans workshop and they can present the information to their peers upon their return, but there is just something about your energy that we need to bottle so that all can be so "on fire" for teaching.

I appreciate all that you do.

Thank you,

Jerri
