I attended the second day of your Tallahassee workshop earlier this week. You said repeatedly that someone would be changed as a result of the day. That person is me!! I am fired up and ready to TEACH EVERY CHILD. I had already been working with the 12 powerful words; the only thing I lacked was a song. I now have my own to the tune of Jolly Old Saint Nicholas. I am leading two meetings next week where I will present posters of these words (if you laminate it, it becomes important) to 30 of our staff members. I will also explain the UNRAVEL method for reading.

After 22 years of teaching it was wonderful to be reminded why it is that I do what I do..... I teach because somebody needs me! Thank you for reigniting my flame. There are no students smarter or better than mine. We're going to the game and we're bringing home the prize!
