Larry,

You were in North Little Rock, Arkansas, yesterday (August 12th). I wanted you to know that I really got a lot from your presentations. It validates so much that I believe in, and it validates what my boss (Tommie Campbell) is trying to do (no, is going to do) in our school.

We will be working everyday to implement your ideas. We will make AYP this school year. I am already working on compiling the dossiers, my Top Five Tips for New teachers, the 12 Power Words, and the UNRAAVEL strategies. The good thing about being from the South is that I have no problem with saying UNRAAVEL correctly!

Thank you for your work. I plan on keeping you posted on our progress.

Sincerely,
