Hey Mr. Bell-

I wanted to tell you how much I enjoyed your two-day workshop for Lauderdale County teachers this week. You inspired me to realize that my attitude first and foremost sets the tone in my classroom. It is easy to lose sight of the beauty of the individuals that walk through my door.

I found myself today more aware of how I interact with my students and had one of the best days of the year through this Bell-inspired consciousness.

Also, thank you for the no nonsense approach to breaking down difficult material and not accepting excuses but continuing to offer challenges. In this country, as successful as we are, our education system, especially in the South, often does not meet the difficulty level it should and our students suffer from us letting them off the challenge-hook. Thank you for working so hard to show educators and students your strategies that can make us better at what we do.

In closing, thank you for highlighting the intrigue of culture and demonstrating your knowledge and depth of language in your closing. You inspired me to be a better teacher and human.

Graciously--

Amber Joyner
